Dear Head of Mathematics,

Do we all agree on what an ‘A’ is?
- a LUMAT SACE Stage 2 workshop opportunity -

- See new assessment tasks, designed and trialled with the new SACE in mind.
- Including previously unreleased material suitable for assessment in 2011.
- See real student responses to tasks and consider how they have been graded.
- Free ... the only cost is your time!

This year Stage 2 Mathematics assessment tasks need to be set so that students can be assessed against the SACE performance standards.

During 2010, the Baker Centre developed and trialled new assessment tasks for Mathematical Studies. In Term 4 of 2010 some of these tasks, and an approach to assessing students with grades A+ to E-, was shared with more than 150 maths teacher via LUMAT workshops.

Following on from this, the LUMAT team is inviting teachers of Mathematical Studies to work further with these new assessment materials. The aim of this term’s workshop will be to help the development of a common understanding of what it means to work at an ‘A’ (or ‘B’ or ‘C’) standard in Mathematical Studies.

At this term’s LUMAT workshop you will:

- Examine a wider range of new assessment tasks and tag them against the SACE Design Criteria’s specific features.
- See how your tagging of a collection of assessment tasks leads to the allocation of grades A+ to E- for student work.
- See how real students performed in these tagged tasks and reflect of the correspondence between tagged tasks and student performance.
- Share your thinking with colleagues in a positive, professional environment as we all work towards a common calibration in school-based assessment.

**Details:**

**When:** This 1-day workshop will offered on the following dates:

- Tuesday the 8th of March  
  9:30 am – 3:00 pm.
- Thursday the 10th of March  
  9:30 am – 3:00 pm.
- Tuesday the 15th of March  
  9:30 am – 3:00 pm.
- Thursday the 17th of March  
  9:30 am – 3:00 pm.

**Venue:** Noel Baker Centre for School Mathematics,
Prince Alfred College, Dequetteville Tce, Kent Town

**NOTE:** To keep the workshop free of charge, participants will need to arrange their own lunch (morning tea will be provided).

**Numbers will be limited – enrol early.**
LUMAT 2011 ENROLMENT FORM – TERM 1
– Please Fax or e-mail back ASAP –

Fax back: (02) 9415 5057;

-----------------------------------------------------------------
-----------------------------------------------------------------

Do you currently have access to graphics calculators at school? YES / NO (please circle)

What is your most recent year of teaching Mathematical Studies? ___ ___ ___ ___ (write 2011 if teaching currently)

You are automatically enrolled to attend via receipt of this form.
You will also receive a faxed confirmation prior to your session date.
